

The Art of Teaching Waldorf Education

Grades 1–4
July 3–7, 2017

Grades 5–8
July 10–14, 2017

Art of Teaching workshops are professional development refreshers for currently practicing, experienced Waldorf teachers. An experienced teacher generally has had training and experience teaching in a Waldorf classroom.

The Art of Teaching provides an overview of the developmental principles that stand at the heart of Waldorf education and inform the curriculum. Participants will feel prepared for the joys and opportunities of a new grade with renewed insight into its unique developmental phase, new ideas for classroom activities, and tips for practical planning.

We focus on curriculum, child development, and practical pedagogy for a specific grade. Teachers who are relatively new to the Waldorf approach will receive guidance in more fundamental subjects such as lesson and block planning, and development of healthy rhythms to support teaching and learning.

You will receive a grade-specific refresher on the curriculum and stage of child development, participate in a range of arts related to a specific grade, and obtain tools and resources to enliven teaching and learning for the upcoming year.
